

OPERATIONAL COMPLIANCE AND SAFEGUARDS

Please join us for a breakfast panel discussion on environmental operational compliance and safeguards.

The panel will explore the following issues:

- How to interpret environmental authority conditions?
- Who is the regulator (DES or Council) for which activities?
- What enforcement 'tools' are available to the regulator, and what are the rights of operators?
- How to protect against an environmental investigation?
- What to do if the regulator takes enforcement action?

We hope you can join us.
