

PUTTING OUT FIRES

Join us for this seminar to gain practical insights into managing legal, safety, and environmental obligations in the Waste and Recycling Industry.

Key topics to be discussed will include:

- **Recent Work Health and Safety updates relevant to the Waste and Recycling Industry**
 - Understanding recent WHS developments in the Waste and Recycling Industry and how to manage them, with a focus on the Work Health and Safety (Sexual and Gender-based Harassment) Code of Practice 2025.
- **Managing and responding to risks associated with battery fires**
 - Understanding the unique challenges and risks associated with battery fires and the employer and employee obligations in respect of it.
- **Responding to and navigating critical safety incidents**
 - Understanding the employer legal obligations and best practice following a critical safety incident, including investigations, responding to regulations and communicating with other stakeholders.
- **The Duty to Restore under the Environmental Protection Act**
 - Understanding the legal triggers, what the duty comprises, when regulatory interactions are appropriate, and when the duty has been satisfied.
- **Enforcement and Regulator Engagement**
 - Understanding enforcement triggers, the process and your options.

Don't miss out on this opportunity to network, learn, and stay informed.
